Apex Advanced Technology, LLC.

Herndon, Virginia

Apex Advanced Technology, LLC (Apex), is an international technology-led services company with over 27 years supporting GIS initiatives for the utilities and communications industries. Customers who have taken advantage of their services include Comcast, Shaw Communications, Rogers Communications, Cable One, NBN Co and a number of others. Their hallmark through the years has been intelligent processes, implemented via technology, yielding the highest quality data. In the process, Apex has gained extensive experience in all aspects of GIS from field audits to engineering design to work order posting.

CCI Systems, Inc.

Iron Mountain, Michigan

CCI is the nation's premier end-to-end design, engineering, and implementation provider of communication network services. With more than 50 years of industry experience, CCI delivers flexible custom solution that work today and meet the needs of tomorrow.

TrueNet Communications, Inc.*Jacksonville, Florida*

Founded in 1985, TrueNet Communications is a national infrastructure engineering and specialty contractor serving the telecommunications, broadband, wireless, enterprise and energy markets. We plan, design, build and support communications and energy infrastructure for our clients across the United States, Canada, Mexico and the Caribbean. Few companies can match our core proficiencies or our ability to deliver innovative solutions that leverage the knowledge gained from designing and supporting successive generations of communications and energy infrastructure for some of world's largest organizations including 3 of the Top 5 Cable MSOs, 4 of the Top 5 Wireline Carriers, 4 of the Top 5 Wireless Carriers and 3 of the Top 5 International Network OEMs. At TrueNet, we are constantly searching for new and creative ways of approaching service delivery that challenge the "business-as-usual" paradigm. We believe that's what a partner should do... constantly look for innovative ways of approaching problems. Let us put our spirit of innovation to work for you today.
