Arris

Domestic and International Locations

ARRIS is a global communications technology company specializing in the design, engineering, and supply of technology supporting triple and quad-play broadband services for residential and business customers around the world. The company supplies broadband operators with the tools and platforms they need to deliver reliable telephony, demand-driven video, next-generation advertising, and high-speed data services. ARRIS products expand and help grow network capacity with access and outside plant construction equipment, reliably deliver voice, video and data services, while ensuring optimal service delivery for end customers.

Rainbow Design Services, Inc.

Louisville, Kentucky

Rainbow Design Services, Inc. is a leading provider of GIS, mapping, survey, construction, and core engineering services. With more than 20 years of satisfied customers, it is a heritage in fiber engineering, deep knowledge of HFC networks, and capabilities in the field and in the office, Rainbow Design Services, Inc. is a phenomenal choice for any organization looking to build new, extend or improve efficiencies in engineering and operating networks: strand mapping, fiber engineering, RF design, inside plant documentation, as-built, walkout and serviceability survey services, software development, and much more. They are known for their “Light Speed” service.
